

Mounting Set

Barlight, universal

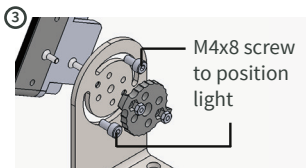

04091.00 Manual MBJ Mounting Set

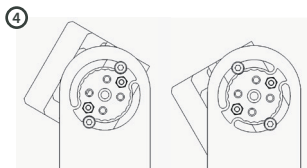

Countersink holes are facing inside where the light will be attached.

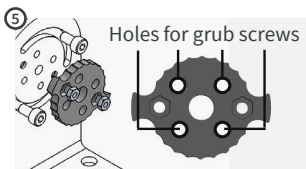

Mount fixation disc to bracket with M3 screws and M3 nuts.

Attach light with M4 screws.

Adjust lighting angle. Indentations (every 15°) in the fixation disc facilitate to find the right angle.

If needed, additional fixation can be done with grub screws.

Mounting Set is compatible to Bar and Spot Lightings.
